Muhammad Rashif Aminurrohim

Informatics Graduate | Aspiring Mobile Developer

Bandung, West Java • +62895361178100 • rashif.learn@gmail.com • LinkedIn • Personal Website

SUMMARY

Informatics graduate from Institut Teknologi Nasional Bandung with hands-on experience in mobile, web, and cloud application development. Experienced in building and delivering end-to-end software solutions using Kotlin, Android, Firebase, JavaScript, React, and AWS, with practical exposure to software architecture, API integration, testing, and deployment. Currently learning Dart and Flutter to expand my mobile development skills. Contributed to AI-powered agriculture and waste classification projects while collaborating with multidisciplinary teams to solve real-world problems through technology.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, Java, Kotlin, Dart, JavaScript, TypeScript, SQL
Frameworks & Tools: Android, Flutter, React, Tailwind CSS, Hapi.js, MVVM, Retrofit, Axios, Postgres, Firebase, AWS, REST API, GitHub, Android Studio, VS Code, Postman, Figma, JUnit4, Espresso, Selenium, Microsoft Workspace

EXPERIENCE

AWS re/Start Program 2025 Jul 2025 – Oct 2025
Cloud Computing Trainee | Bash, Networking, AWS Cloud Platform

- Gained hands-on experience with cloud infrastructure, networking, security, and deployment practices.
- Built and managed cloud-based solutions using AWS services such as EC2, S3, RDS, and VPC.
- Earned the AWS Certified Cloud Practitioner certification, validating foundational cloud computing knowledge.

Coding Camp by DBS Foundation Feb 2025 – Jul 2025
Web Developer Cohort | React.js, Tailwind CSS, Hapi.js

- Completed 300+ hours of intensive training in full-stack web development and machine learning integration.
- Developed Strash, a machine learning-powered waste classification platform capable of classifying waste into multiple categories with 92% model accuracy.
- Collaborated with a multidisciplinary team of six members to develop core application features and integrate machine learning services into the web platform.

Data Management Internship Oct 2024 – Feb 2025
PT Taspen (Persero) KCU Bandung | Data Management, Document Processing

- Supported pension and insurance claim operations by digitizing and organizing participant records to improve document accessibility.
- Assisted in resolving claim-related issues through data retrieval and validation from internal information systems.
- Proposed and designed the Portal Pengajuan Kebutuhan Kerja (PPKK), a digital solution aimed at streamlining internal workforce request processes and improving operational efficiency.

Android Developer Cohort Feb 2024 – Jul 2024
Bangkit Academy 2024 Mobile Developer Path | Kotlin, Android, MVVM, Retrofit, Firebase

- Completed 500+ hours of structured learning in Android development, software engineering, UI/UX design, and industry best practices.
- Developed multiple Android applications using Kotlin, Android Jetpack, MVVM architecture, and REST API integration, including **Tanamin AI**, an agriculture-focused capstone project that delivers AI-powered recommendations to support farming-related decision making.
- Collaborated with cross-functional team members from machine learning and cloud computing tracks to deliver a

complete end-to-end product.

VOLUNTEERING

ITENAR 2024: Volunteer Educator Nov 2024
ITENAS Student Executive Board

- Participated in a community service program focused on disaster preparedness education for elementary school students at SDN Cikapundung 01.
- Assisted in conducting disaster mitigation simulations and educational activities to promote safety awareness.
- Collaborated with volunteers and school staff to ensure successful program execution.

EDUCATION

Institut Teknologi Nasional Bandung 2021 – 2026
Bachelor's Degree in Informatics

- GPA: 3.62

CERTIFICATES

AWS Certified Cloud Practitioner Dec 2025 – Dec 2028
Issued by Amazon Web Services Training and Certification

Intermediate Web Development May 2025 – May 2028
Issued by Dicoding Academy

Dev Certification for Android (DCA) Dec 2024 – Jul 2027
Issued by dev.id

LANGUAGES

Indonesian (Native), English (Intermediate)
